Visual Studio

About Me

I truly enjoy web/software development and love to work around the challenges it presents and I am always keen to learn more. I possess a clear, logical mind with a practical approach to problem solving and a drive to see things through to completion. I have a good eye for details and always ensure my work is accurate.

Work Experience

Website Design and Development

Self-Employed | March 2021 - Present

- Designed websites from scratch using Figma software.
- Styled and animated components using JavaScript, Html, CSS, Bootstrap and Tailwind.
- Used React framework to create static webpages.
- Created CRUD apps using Ruby on Rails.
- Implemented plug-in's such as Stripe Payment and Slick Carousel.
- Practiced using Ruby Gems and React Libraries.
- Created custom images and graphics using Adobe Photoshop.
- Uploaded websites to Heroku and Vercel.
- Enabled database management via Admin page.

Groundworker/ Machine Operator

Self Employed | March 2021 - Present

Mark Thorne Groundworks | February 2012 - March 2020

Waiter and Bar Staff Part Time

Jalapeno Pepper's | January 2011 - March 2012

Academic History

Le Wagon

Certificate of Completion | 9-weeks Intensive Coding Bootcamp

- Learned how to use HTML, CSS, Bootstrap, JavaScript ES6 and Ruby on Rails.
- Regularly uploaded to GitHub, and websites were deployed to Heroku.
- Familiarised with Slack, Zoom, Visual Studio, Windows Terminal and Figma.
- Collaborated ideas with others and translated them to the screen together.
- Used Adobe photoshop to create Logo's for our project's.
